Dr. Earlyne Chaney of Astarra said that the incorruptible bodies of Thoth, Osiris, etc. lie below the Great Pyramid in suspended animation awaiting the day when they will be reanimated. The following is the excerpt from the book "Revelations of Things to Come" by Dr. Chaney, posted for scrutiny. See below after the post for my comments:

Page 146-147

THE SECRETS OF THE SLEEPERS

Question: In your prophecies given during your Egyptian tour, you said you believed Thoth to be what you called "a sleeper." What is a sleeper?

Answer: Let me answer first by flashing back to an incident which occurred several years ago.

It is our practice at Astarra to occasionally present seminars conducted by well known personalities - presenting teachings important to new age seekers of light. The incident to which I refer occurred during a seminar presented by Bill Cox, a well known speaker and researcher of pyramid energy, and other energies. He had just invited questions from the audience when I suddenly saw a vision and received an incredible message from my own invisible Teachers. The information given to me was too important to withhold, so I raised my hand and asked permission to share my vision with his audience. Bill immediately invited me to the platform to channel whatever teaching I was receiving - which was this:

"Thoth came from Outer Space - Sirius, and from Planet X in our own solar system, not yet discovered. He came to Earth to establish the Mystery Schools and to advance civilization on Earth. He established the glories of Atlantis. When Atlantis fell, he went to Egypt. When his days of service to the Hierarchy ended, he departed his physical form but not in the usual manner we call death. He had his form," preserved and placed in a vault deep beneath the Great Pyramid. He is what my Teachers call a sleeper.

"He himself is presently only attached to this form through an etheric thread: The form lies in suspended animation, as do many of all those we now call "the incorruptibles." Among the high Ptahs of the Mystery Schools there are 13 such sleepers. Seven of them lie in tombs in Egypt. Four of them rest in underground vaults under certain sites in the Andes. One lies sleeping under Lhasa in Tibet. I do not know where the 13th sleeps. There are others but these 13 are major initiates, principal contact points between Earth and the Order of Melchizedek.

They came to Earth from Planet X and other stars long ago. They helped establish the Mystery Schools and build the vast tombs and temples of antiquity. Some of the forms of these sleepers are not lying down. They are encased in upright chambers -like a crystal sarcophagus - filled with some kind of strange liquid, which rises only to the

shoulders, preserving the form. Over the head, preserving the brain, is a strange kind of helmet. It seems to be linked with some kind of solar: computer because there seems to be some type of valve, or gauge' measuring and: controlling an inflow of life force to feed the brain. Some of these sleepers have six fingers and toes. There are webs between their fingers, Occasionally there seems to appear some kind of mask over their faces, but it vanishes again.

Now the forms of these great initiates are thus sustained awaiting some great event. I believe it to be the Second Coming of the Christ. I believe at a certain time in the future, the Christ will manifest, in a solar event -stirring the world to an awakening of his etheric presence. At that time, the souls of these 13 beings will reenter their forms and awaken them. I believe this is what happened when Jesus was crucified. Remember the scriptures? - the Bible says the veil of the temple was rent, the earth quaked, the rocks split asunder and darkness, like unto night prevailed. Then: the graves opened and many bodies of the saints which slept arose and came out of the graves. They went into the city and appeared to many people.

"I believe these to be the incorruptible bodies of the saints - and I believe they will again come forth when Jesus appears again. And I think Thoth will reanimate his body and again lead us toward the Mysteries. Inihotep - whom I believe to have been a spacegod - may reanimate his form, which has never to this day been found, and lead Egypt to new glories. Or he may have departed Earth in a spaceship and return when the spacegods land, I believe the four who sleep in the Andes will again awaken. Two are men and two are women. And, they await the event of the Second Coming of Christ, or the landing of, the spacecrafts bringing the Melchiedeks back to Earth.

When I finished speaking, a dead silence filled the room. All stared at me in total amazement.

(back to Mestle. My comment.

If Thoth, Osiris are malevolent Ultradimensionals who came here to conquer ages ago. Their agents could be the one who gave the information to Dr. EarLyne Chaney (who has passed away already). However. In fairness to Dr. Earlyne Chaney. Let's just say there might be subspace deceivers... as well as real Adept of Light such as Master Zoser (Her Teacher) whom many disciples of the Mysteries have encountered. What do you think? If the bodies of Thoth, Osiris, etc. are below the Great Pyramid. Is it going to be found soon? Perhaps in July or August 1999 (see the Nostradamus stuff as suggested by PhilKent) when the King of Terror arrives from the sky - could this be their Overlord signalling the arrival of major interplanetary reinforcement coming from Alpha Draconis, etc, to begin the physical takeover of Earth? Or is it, like Dr. Chaney suggested, the Christ signalling his arrival and the awakening of the incorruptible saints?? Or is it none of the above (of course). :)
